IPS–Heidelberg Award 2024

The IPS is pleased to announce a call for applications for the 2024 IPS-Heidelberg Award that will be presented at the XXVth International Visual Field & Imaging Symposium, Cardiff, United Kingdom, 2024.

Scope

- Support of young scientists in innovative research on the interrelation of structure and function in glaucoma

The requirements for an application for this award are:

- First or second author in an abstract which is accepted for presentation at the XXVth International Visual Field and Imaging Symposium in Cardiff, UK.
- Responsibility for the scientific content of the publication.
- Innovative work judged of outstanding quality in the area of the relationship between morphology and function as relevant to the IPS
- Membership in good standing in the IPS
- Maximum age 40 years or less in the year of the IPS Symposium.

The award will be announced and presented at the IPS Banquet during the meeting.

The sponsor may decide to divide the award to more than one winner.

The results of the award are final and no appeal is permitted.

In order for your application to be considered, we must receive in electronic format:

- The completed IPS Heidelberg Award application form
- A curriculum vitae (2 pages)
- An abstract of the proposed presentation (1 page maximum)

Applications should be made to the Secretary of the IPS, Prof Allison McKendrick via email (allison.mckendrick@uwa.edu.au). Applications are due by close of abstract submissions, 1st March 2024.
